

1st Annual Summer Science Institute

MAKING SCIENCE MEANINGFUL

'Navigating the New Montana Science Standards'

August 13-14, 2018

Willson Building, Bozeman, MT

K-12 Educators, Administrators and Curriculum Specialists—this two-day science professional learning institute is a collaborative conference with national and local science educators, authors, leading professional learning providers, and exhibitors. Network and learn with and from science educators from across the state and beyond!

Engaging opportunities in three general strands:

1. Transitioning to MT's new NGSS-based Science Standards/3D Instruction
2. Deepening Core Content Knowledge
3. STEAM Cross-curricular Teaching & Learning

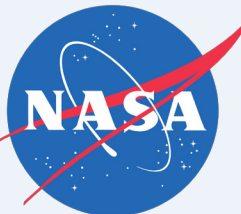

Keynotes

Emily Morgan,
Co-author, *Picture-Perfect Science Lessons* series and Author of *Next Time You See* picture book series

Brandon Rodriguez, Ph.D.,
Educator Professional Development
Specialist, NASA JPL
